Technical Skills

Languages: C, C++, Java, JavaScript

Frontend: Tailwind CSS

Backend: Node.js, Express.js,

Database: MongoDB, MySQL, Schema Design

Tools: Git, GitHub, Postman

Core: DSA, OS, CN, OOP

Soft Skills: Problem Solving, Team Collaboration

Education Details

BCA

Dezyne École College

Expected Graduation 2027

12th Class - IP

St. Paul's School, Ajmer

Percentage: 85%

10th Class

St. Paul's School, Ajmer

Percentage: 80%

PROFESSIONAL SUMMARY

Curious and self-motivated BCA student with a strong interest in AI and backend development. Learns best by building real projects and understanding systems end to end. Has hands-on experience with C++, SQL, and AI automation using n8n and Gemini API. Quick to learn, consistent, and eager to grow under mentorship while contributing to real-world software solutions.

PROJECTS

HireMate AI – Intelligent Job Application Assistant

- Built AI agents using **n8n** for cover letter generation and resume analysis.
- AI-powered career assistance platform automating job application and resume optimization workflows.
- Integrated **Google Gemini API** for city-wise job search, skill recommendations, and ATS score analysis.

ATM Management System – C++ & SQL

- Console-based ATM system developed using **C++** with secure **SQL database integration**
- Implemented **admin and user login authentication** using account number and PIN verification.
- Features include account creation, balance inquiry, cash deposit, withdrawal, and PIN change.
- Integrated **MySQL database** for persistent storage of user details and transaction data.
- Focused on data security, input validation, and clean formatted output.
